CAREER OBJECTIVE

Applying as a JavaScript Developer / PHP Developer

To secure a position where I can efficiently contribute my skills and abilities to the growth of the organization and build my professional career.

PROFESSIONAL SUMMARY

As a recent graduate with a passion for front-end and back-end development, I am excited to bring my skills to a dynamic team. With a strong work ethic and exceptional organizational skills, I am committed to contributing to the success of any project.

Having worked on Fiverr for 3 months, I have gained valuable experience and am eager to tackle new challenges. I am motivated to learn, grow, and excel as a PHP and JavaScript Developer, and am actively seeking opportunities for a Junior role or a job that matches my skills.

My proficiency in both front-end and back-end development allows me to create dynamic and responsive websites and web applications. I have an eye for detail and am dedicated to delivering quality work that sets me apart from others.

Collaborating effectively with others and communicating complex technical concepts in simple terms are some of my key strengths. I am always ready to take on new challenges and am committed to staying up-to-date with the latest industry trends and developments.

With my passion, dedication, and expertise, I am poised to make a meaningful impact in the field of web development.

I am excited to begin my journey toward success and am eager to contribute to a team that values hard work and innovation.

COURSES

C.I.T Short Course

4 months of Short Course from Insto Career Academy from
Qasimabad Hyderabad

Online Blogging Application.

This web application has two roles, admin and user. Application contains Blogs, Posts, and Categories added by the admin and viewed, by the user.

News Web Application

I have created a News web application using Bootstrap, JavaScript, HTML, CSS, and React-Js. The application provides users with access to news articles categorized into various categories such as Entertainment, Business, Sports, and Science.

Text-Manipulator

I created a text manipulation tool using Bootstrap, JavaScript, HTML, CSS, and React-Js. The application allows users to manipulate text in various ways, such as copying and pasting, converting text to uppercase or lowercase, and converting text to camelcase.

Portfolio

I have created my portfolio, where I am showing my skills, experience, and education background.
